## The Convention (or Hobbitcon)

Well the convention is over of another two years. I miss the fun already and I had so much fun it is impossible to record it all here. I probably missed a great deal as one can not be everywhere. I was gaming, coffee drinking and chatting so much of the time that I didn't even see one fight and didn't miss it.

One striking feature was the horde of children; the biggest single interest group at 40+. All costumed and running around or being entertained as not to overrun the more adult activities. It was like having a group of hobbits around, very humorous and good sign for the future of the movement. This trend of more families is better than people (or one of a couple) staying at home due to the children and missing all the fun.

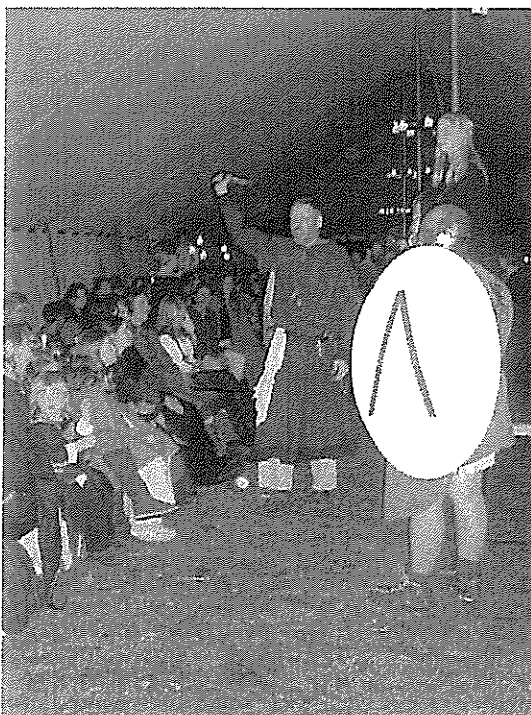

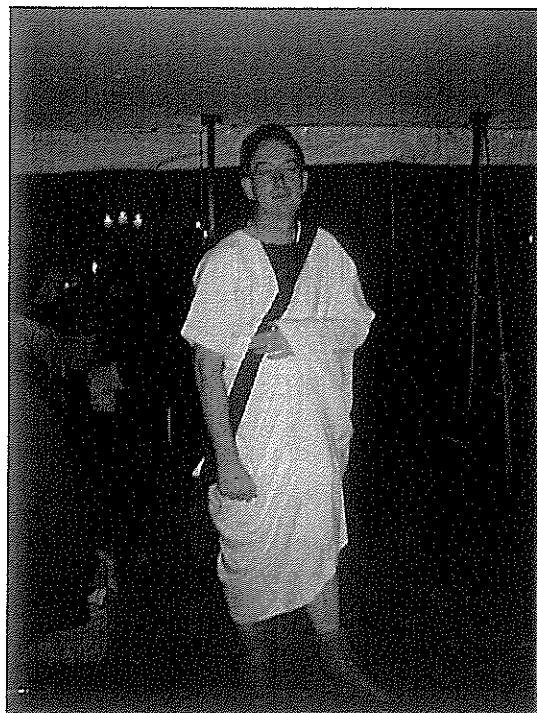

The Food, so much yummy food, every lunch and dinner, I put on a "kilo" over the weekend and was so full I missed some of the courses.

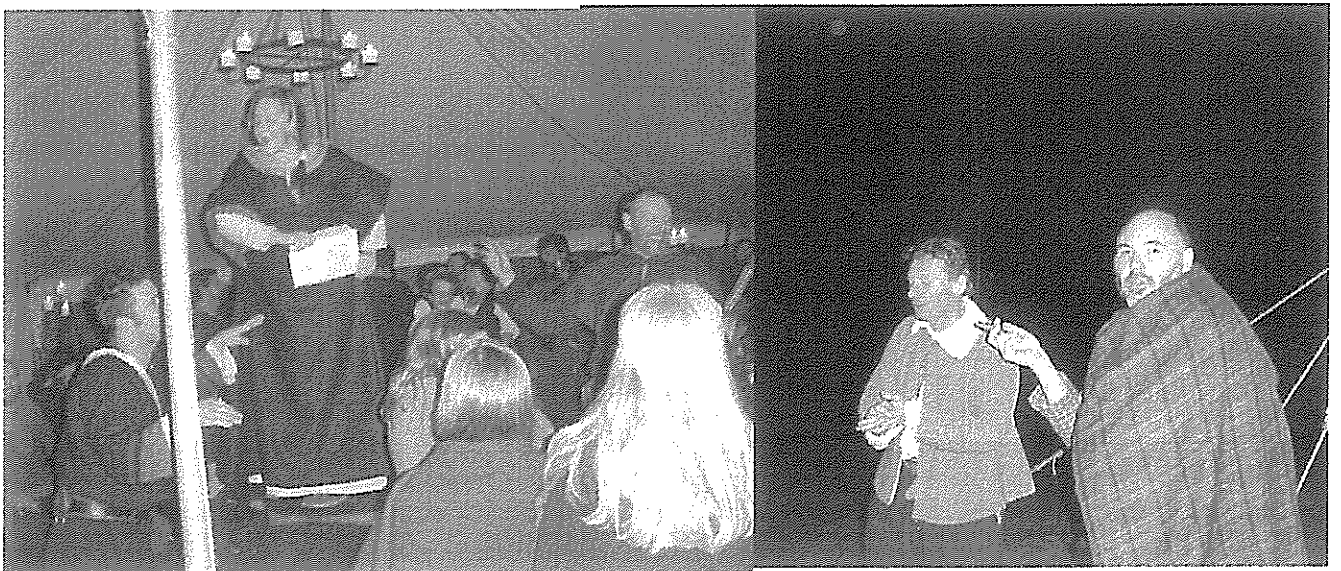

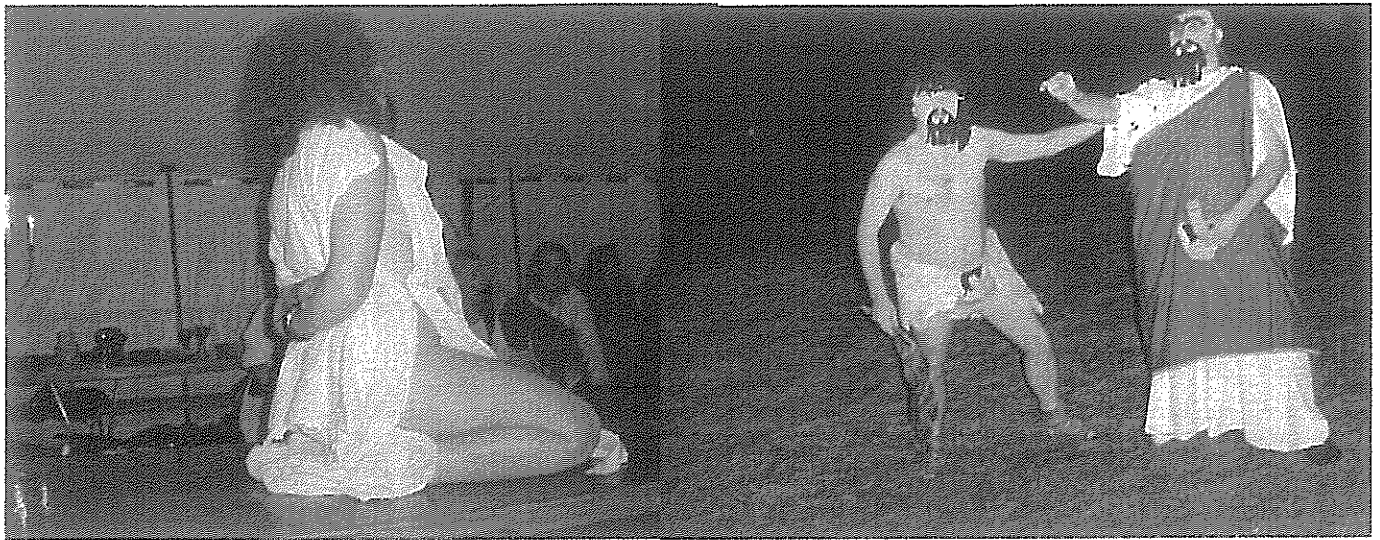

I would like to extend a personal and I think a club thanks to all the committee, workers and cooks that made this a great weekend.

Well they say a picture is worth a thousand words, so here is a large book in pictorial form.
